

## Hill: Pet carrier built for comfort

By Karen Nazor Hill

Monday, January 2, 2012

Looking for a way to comfortably tote your small pet without carrying a cumbersome pet carrier?

A new product called the Cuddle'n Carry shirt allows owners of small pets to carry their little animals in comfort, according to Grant Landis at Amicus Public Relations.

“With plenty of winter still ahead, (it’s) a great cold weather item for pets,” Landis said. “It is a cozy sweatshirt with a built-in front pouch to provide a warm, comfortable mode of transportation for any pet under 10 pounds.

Cuddle'n Carry allows the pet's weight to be evenly distributed throughout the garment, more comfortable for pet and pet owner.”

The shirt doubles as a comfortable-looking sweatshirt.

The shirt allows most pets to change position freely, pop their head out to view the world or pull back in for a snooze.

For more information, visit [cinderooz.com](http://cinderooz.com). The machine washable/dryable shirt costs \$69.95.
